## Co-production Overview

---

- Data gathering
- Client survey and focus groups
- Stakeholder focus groups
- Service Provider focus groups
- Key themes:
  - Services should be person-centred and holistic, meeting a variety of needs.
  - Though most people want to access services in person an online offer is also useful.
  - Services should support with gaining skills/qualification/work experience/volunteering, moving into work, support in work and links to other support services.
  - Services should be inclusive and accessible.
